

VITA – JENNIFER G. KLING

Position Title: Plant Breeder and Geneticist
Rank: Professor/Senior Research
Telephone: 541-737-8277 **Fax:** 541-737-1589
Email: jennifer.kling@oregonstate.edu
<http://cropandsoil.oregonstate.edu/content/jennifer-kling>

Mailing address:
107 Crop Science Building
Oregon State University
Corvallis, OR 97331-3002

EDUCATION

Degree	Institution	Year Granted
Ph.D. — Genetics	North Carolina State University, Raleigh, NC	1988
M.S. — Agronomy/Plant Breeding	University of Nebraska, Lincoln, NE	1983
B.S. — Crop Science	Oregon State University, Corvallis, OR	1980

EMPLOYMENT HISTORY

Position	Employer	Years
Agricultural Consultant/Breeder	Self	since 2016
Research Associate	Forest Ecosystems & Society, Oregon State Univ.	since 2016
Professor/Senior Research	Crop & Soil Science, Oregon State Univ.	since 2001
Maize Breeder	IITA, Ibadan, Nigeria	1990–2000
Post-Doctoral Research Fellow	IITA, Ibadan, Nigeria	1988–1990
Graduate Teaching Assistant	Genetics, North Carolina State Univ.	1987–1988
Graduate Research Assistant	Genetics, North Carolina State Univ.	1983–1987
Graduate Research Assistant	Agronomy, Univ. of Nebraska - Lincoln	1981–1983

CAREER OBJECTIVES

- Breed specialty crops for niche markets in Oregon – I currently collaborate with local growers' organizations on meadowfoam, flax, and oats.
- Provide consulting services on experimental design and analyze data for agricultural research projects.
- Develop curriculum and training materials to support online learning for diverse audiences in plant breeding and related fields.

RESEARCH (since 2005) Oregon State University

- Develop genetic markers and efficient methods for genomic selection in Douglas-fir (since 2016) – I conduct quantitative genetic analyses for the PNWTIRC, which is directed by Glenn Howe.
- Developed improved cultivars of meadowfoam (*Limnanthes alba* Benth.), with better disease and pest resistance and higher oil yield, to increase the productivity and profitability of meadowfoam as a crop in the Willamette Valley of Oregon (2006–2015).
- Developed high-oil, spring oat germplasm for irrigated environments in Oregon (2013–2015).
- Data Curator, Barley CAP (2006–2011) – Monitored quality of phenotypic and pedigree data received from collaborators; applied standardized formats for uploading into The Hordeum Toolbox database.

TEACHING

Oregon State University

- Completed a professional development course on “Developing an Online Course” offered by Ecampus at OSU (Fall, 2014)
- Developed CROP 590 “Experimental Design in Agriculture” for online delivery
- Developed course material and a website for teaching CSS 330 “World Food Crops” as an online course (2003)
- Maintain websites for two on-campus courses at OSU:
<http://cropandsoil.oregonstate.edu/content/crop-590-agriculture>
<http://cropandsoil.oregonstate.edu/content/pbg-650>

Course No.	Title	Term(s)
<i>Courses Taught</i>		
CROP 590	Experimental Design in Agriculture (online)	Spring 2017
CROP 590	Experimental Design in Agriculture	Winter 2007–2016
PBG 650	Advanced Plant Breeding and Quantitative Genetics	2005–2015 (Every other year)
HORT/CROP 407	Senior Seminar	Spring 2013–2014
CSS 490/590	Field Plot Technique	Winter 2003–2006
CSS 505/605	Current Literature in Plant Genetics	Spring 2006
CSS 330	World Food Crops (online)	Spring 2003–2006
CSS 405	R&C — Specialty Crops for Niche Markets	Fall 2003
CSS 499/599	Issues in Sustainable Agriculture (distance course)	2001–2002
<i>Guest lectures</i>		
PBG 450/550	Plant Breeding	Spring 2003–2016
CSS 330	World Food Crops	2003–2016
PBG 519	Current Topics in Plant Breeding	Spring 2013
CSS 599/699	Association Genetics and Breeding	Winter 2009
CSS 621	Genetic Mapping	Fall 2004
CSS 630	Current Topics in Plant Breeding	Spring 2002, 2004

International Institute of Tropical Agriculture

- Lectured and conducted a two-day field trip in Nigeria for a course on Breeding for Stress Tolerance in Maize (1999)
- Research coordinator and lecturer for three training courses on Maize Research and Technology Transfer (8–10 weeks each, 1989–1992)
- Coorganized and taught a one-week training course on the use of MSTATC to analyze breeding experiments (1991)

GRADUATE STUDENT COMMITTEES

- Co-advisor for Jun Zhang, who completed his PhD in 2016 (funded by the Berger Endowment, OSU)
- Served as a committee member for 12 PhD students and 13 MS students in 8 departments at OSU
- Supervised research for 6 PhD students and 3 MSc students at IITA

RESEARCH (1988-2000) International Institute of Tropical Agriculture (IITA), Ibadan, Nigeria

- Developed maize inbred lines, hybrids, and varieties adapted to West and Central Africa, with tolerance to abiotic stresses and resistance to prevalent disease and insect pests
- Senior Maize Breeder (1996–2000) — Provided leadership for maize breeding activities which were carried out by a team of 7 international scientists and 40 locally-recruited staff
- Coordinator, Maize/Grain Legume Systems Project (1999) — Organized planning meetings and monitored research activities for a team of 12 international scientists of various disciplines, compiled annual reports, and made presentations on behalf of the project at workshops and Institute reviews
- Coordinator, Project on Conservation and Utilization of Plant Biodiversity (1998) — This project covered all aspects of germplasm conservation and characterization for the six IITA mandate crops as well as studies on genetic diversity, development of source germplasm, and exchange of disease-tested planting materials

MAJOR EXTENSION PROGRAMS

- Multiplied improved maize inbred lines, hybrids, and varieties for testing and distribution to national research programs and farmers in West and Central Africa (1988–2000)

PROFESSIONAL ACTIVITIES

- Member Crop Science Society of America (CSSA) & American Society of Agronomy (ASA)
- Member National Association of Plant Breeders (NAPB)
- Served on four NIFA grant review panels (2011–2015)
- Reviewed the CGIAR Mega Program Proposal entitled “WHEAT — Global Alliance for Improving Food Security and the Livelihoods of the Resource-poor in the Developing World” as a consultant for Bioversity International (2010)
- Prepared a review chapter on “Varietal Development” for major food crops in Africa in a study conducted by ICIPE for the Bill and Melinda Gates Foundation (2006)
- Chairperson of the ASA International Awards Committee (2004/2005)

Consultant, Rockefeller Foundation

- Member of a Scientific Advisory Committee for a Rockefeller Foundation program entitled “Biotechnology, Breeding, and Seed Systems for African Crops” (2002–2007)
- Conducted reviews of national maize breeding programs and seed projects funded by the Rockefeller Foundation in Zimbabwe, Malawi and Kenya (Sept. 8–18, 2003)
- Coordinated and lectured in a training workshop in Bellagio, Italy on “Biotechnology, Breeding and Seed Systems for African Crops” (September 9–20, 2002)
- Member of a team that reviewed the Kenya Maize Breeding Program (June 16–20, 1998)

AWARDS AND HONORS

International Institute of Tropical Agriculture

- Received three awards from the Training Program for contributions to training
- Received a ten-year service award from the West and Central Africa Maize Research Network for contributions to training and development of training materials, 1997

Awards Received as a Student

Outstanding Teaching Assistant Award, 1987
Member Gamma Sigma Delta, Sigma Xi, Phi Kappa Phi
G.R. Hyslop Memorial Foundation Scholarship
Oregon Seed Trade Association Scholarship
Pennsylvania Higher Assistance Agency Scholarship

GRANTS AND CONTRACTS (since 2005)

1. OMG Meadowfoam Oil Seed Growers Cooperative/ARF, 2012–2015. Developing Spring Oat Cultivars with High Oil Content for the Willamette Valley (Principal Investigator) (\$119,339)
2. OMG Meadowfoam Oil Seed Growers Cooperative/ARF, 2008–2014. Enhancing the Genetics and Productivity of the Oilseed Crop Meadowfoam (Principal Investigator) (\$111,400)
3. OSU Agricultural Research Foundation, 2012–2013. Breeding Dual-Purpose Flax Varieties for Emerging Textile Markets in Oregon (Principal Investigator) (\$12,425)
4. OSU General Research Fund, 2011–2012. Bee pollinators for increased oilseed yield of meadowfoam in the Willamette Valley (Co-PI on a project directed by Sujaya Rao) (\$10,000)
5. USDA Barley Coordinated Agricultural Project, 2006–2011 (0.25 FTE for role as Data Curator)
6. USDA-CSREES/NIFA, Special Research Grants Program, 2010. Enhancing the Genetics and Productivity of the Oilseed Crop Meadowfoam (Principal Investigator) (\$167,520)
7. USDA-CSREES, Special Research Grants Program, 2009. Enhancing the Genetics and Productivity of the Oilseed Crop Meadowfoam (Principal Investigator) (\$167,812)
8. USDA-CSREES, Special Research Grants Program, 2008. Enhancing the Genetics and Productivity of the Oilseed Crop Meadowfoam (Principal Investigator) (\$178,716)
9. USDA-CSREES, Special Research Grants Program, 2006. Enhancing the Genetics and Productivity of the Oilseed Crop Meadowfoam (Principal Investigator) (\$168,276)
10. USAID/ALO Rural Livelihoods Consortium, 2005 (0.15 FTE for training activities in Southern Africa)

CULTIVAR AND GERMPLASM RELEASE (since 2005)

Kling, J.G. 2013. Release of 'Crane' meadowfoam. Report and presentation approved by the Varietal Release Committee, Oregon Agricultural Experiment Station.

Kling, J.G. 2015. Plant variety protection application for Crane meadowfoam (#201600012). USDA, Washington, DC. *Application accepted*

CONFERENCE PROCEEDINGS, WEBINARS, EXTENSION BULLETINS (since 2006)

- Kling, J.G., M. Trappe, S. Kolpak, T. Ye, K. Jayawickrama, and G. Howe. 2016. Validation of SNP data for genomic selection in Douglas-fir. Presentation at the Pacific Northwest Tree Improvement Research Cooperative Annual Meeting, Oct. 19, 2016, Portland, Oregon.
- Sagili, Ramesh, and Jennifer Kling. 2015. Pollination and seed set in meadowfoam. OSU Extension Bulletin EM8666. Replaces EC1360.
- Kling, J.G. 2013. Lattice Designs Webinar. Available on eXtension: <http://www.extension.org/pages/68608/lattice-designs-webinar>
