Overall learning progress				

More information on back

Briefly comment on these work performance areas:

1. Briefly describe the student's sense of duty, or responsibility toward the research tasks.
2. Briefly describe the student's work productivity and efficiency, including communication skills.
3. Describe if the student applied good judgment and had the technical competence for assigned tasks.
4. Explain if you would recommend this student for future crop and soil science research experiences.
5. Describe any areas involving the research program and/or student that you wish to comment on?

This information will be made available on request to the student and their advisors in Crop and Soil Science per OSU policy. Are you willing to have this information released to others outside the Department of Crop and Soil Science. Students sometimes use the information as they seek employment.

I am willing to release this information outside the Dept of Crop and Soil Science

I am not willing to release this information outside the Dept of Crop and Soil Science
